Summary

Motivated Laravel developer with hands-on experience building full-stack web applications using Laravel, Inertia.js, and React. Proficient in PHP, MySQL, RESTful APIs, and front-end technologies including HTML, CSS, and JavaScript. Seeking an internship opportunity to contribute to real-world projects and grow as a professional web developer.

Technical Skills

Backend: Laravel, PHP, MySQL, REST APIs, Authentication & Session Management

Frontend: React.js, Inertia.js, HTML5, CSS3, JavaScript, jQuery, Tailwind CSS

Tools: Git, GitHub, Composer, NPM, Postman, VS Code

Databases: MySQL, SQLite

Other: AJAX, Python (basic), MERN Stack (basic)

Projects

Lapis Nepal Consultancy — *Laravel · Inertia.js(React) · MySQL*

- Built a full-stack consultancy management system for handling client inquiries, document tracking, and service workflows.
- Developed SPA experience using Inertia.js with React front-end connected to a Laravel back-end.
- Designed normalized MySQL schema to support complex case relationships and status tracking.

Baishdhara Medical — *Laravel · MySQL · Blade · JavaScript*

- Developed a static medical clinic portal to accept the online appointment and show the services of the medical.

RealEstate Suggester — *Laravel · MySQL · JavaScript (Academic Project)*

- Designed a property recommendation system matching buyer preference (budget, location, size) with listings.
- Implemented advanced search and filter engine with map-based property visualization.
- Created secure property listing management for agents with multi-file image upload and validation.

Online Job Portal — *Core PHP · AJAX · MySQL · HTML/CSS (github.com/silwalrajaram09/online-jobportal)*

- Built a complete job portal with employer posting, seeker application, and admin moderation modules.
- Implemented AJAX-driven dynamic content loading for seamless job search and filtering.
- Developed secure user authentication with role separation (Job Seeker / Employer / Admin).
